## DESIGN

### 1.

VELCRO

VELCRO

Please provide your Pantone colour references before production begins. If you do not have specific colour codes, we will base the colours on those in your file. Please note that while we will do our best to match them as closely as possible, an exact reproduction of a Pantone colour cannot be guaranteed due to various technical factors. Additionally, since the materials used for the fringes and the scarf itself are different, colours may appear slightly different.
